Barr Laboratories, Inc.
Attention: Herbert G. Luther, Ph.D.
2 Quaker Road
P.O. Box 2900
Pomona, NY 10970-0519

Dear Sir:

This is in reference to your abbreviated new drug application dated December 5, 1994, submitted pursuant to Section 505(j) of the Federal Food, Drug, and Cosmetic Act, for Danazol Capsules USP, 200 mg.

Reference is also made to your amendments dated February 20, March 6, 1996 and July 26, 1996.

We have completed the review of this abbreviated application and have concluded that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly, the application is approved. The Division of Bioequivalence has determined your Danazol Capsules USP, 200 mg to be bioequivalent and, therefore, therapeutically equivalent to that of the listed drug (Danocrine® Capsules, 200 mg of Sanofi Winthrop, Inc.). Your dissolution testing should be incorporated into the stability and quality control program using the method proposed in your application.

Under 21 CFR 314.70, certain changes in the conditions described in this abbreviated application require an approved supplemental application before the change may be made.

Post-marketing reporting requirements for this abbreviated application are set forth in 21 CFR 314.80-81. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

We request that you submit, in duplicate, any proposed advertising or promotional copy which you intend to use in your initial advertising or promotional campaigns. Please submit all proposed materials in draft or mock-up form, not final print. Submit both copies together with a copy of the proposed or final printed labeling to the Division of Drug Marketing, Advertising, and Communications (HFD-240). Please do not use Form FD-2253 (Transmittal of Advertisements and Promotional Labeling for Drugs for Human Use) for this initial submission.

We call your attention to 21 CFR 314.81(b)(3) which requires that materials for any subsequent advertising or promotional campaign be submitted to our Division of Drug Marketing, Advertising, and Communications (HFD-240) with a completed Form FD-2253 at the time of their initial use.

Sincerely yours,

/S/

8/9/96

Douglas L. Sporn
